

AMERICAN JOURNAL OF OPHTHALMOLOGY

THIRD SERIES FOUNDED BY EDWARD JACKSON

VOLUME 66

JULY-DECEMBER, 1968

EDITORIAL STAFF

FRANK W. NEWELL, *Editor-in-Chief*

DERRICK VAIL, *Editor-in-Chief Emeritus*

BERNARD BECKER
WILLIAM L. BENEDICT
FREDERICK C. BLODI
THOMAS CHALKLEY
SIR STEWART DUKE-ELDER
DUPONT GUERRY, III
ARTHUR H. KEENEY
BERTHA A. KLIEN
ALEX E. KRILL
JAMES E. LEBENSOHN
IRVING H. LEOPOLD

WILLIAM A. MANN
JOHN M. McLEAN†
A. EDWARD MAUMENEE
EDWARD W. D. NORTON
ALBERT M. POTTS
ALGERNON B. REESE
MARVIN L. SEARS
DAVID SHOCH
GEORGE K. SMELSER
PHILLIPS THYGESON
GUNTER K. VON NOORDEN

† Deceased

MARY CONN, *Manuscript Editor*

JANE LAMBE, *Advertising and Business Manager*

ILA SCHNEIDER, *Editorial Correspondent*

COLLABORATORS

THOMAS AABERG, *Oklahoma City*; JOSEPH E. ALFANO, *Chicago*; HENDERSON ALMEIDA, *Belo Horizonte, Brazil*; SYLVAN BRANDON, *Houston*; JAMES BRENNAN, *Buffalo, New York*; ALSTON CALLAHAN, *Birmingham*; THOMAS CHALKLEY, *Bethesda, Maryland*; GEORGE A. CHILARIS, *Athens*; RAY K. DAILY, *Houston*; ALICE R. DEUTSCH, *Memphis*; IRWIN E. GAYNON, *Milwaukee*; CONRAD L. GILES, *Detroit*; MORTON F. GOLDBERG, *Arlington, Virginia*; ROBERT T. GOLDBERG, *Flushing, New York*; ELLIS GRUBER, *Rochester, New York*; BERTHA T. HAESSLER, *Alamo, California*; DAVID G. HANEY, *New Orleans*; PAUL A. HEIN, JR., *St. Louis*; HARRY HORWICH, *Coral Gables*; KENNETH HOVLAND, *Boston*; MAURICE KADIN, *Granada Hills, California*; G. THOMAS KIFFNEY, JR., *Chapel Hill, North Carolina*; WALTER KLEIS, *Santurce, Puerto Rico*; PETER C. KRONFELD, *Tucson, Arizona*; JAY G. LINN, JR., *Pittsburgh*; RONALD R. LOWE, *Melbourne*; GYULA LUGOSSY, *Budapest*; WALTER MAYER, *Richmond, Virginia*; PAUL W. MILES, *St. Louis*; MILORAD M. MILIC, *Steubenville, Ohio*; YUKIHIKO MITSUI, *Tokushima*; ALBERT MONTERASTELL, *Chicago*; STANLEY MUENZLER, *Oklahoma City*; EDWARD U. MURPHY, *Evansville, Indiana*; GUNTER K. VON NOORDEN, *Baltimore*; MIHAIL I. PASCO, *Tel-Aviv*; ROSWELL R. PFISTER, *Ann Arbor, Michigan*; ANDREW DE ROETHH, JR., *New York*; WALTER SEGALL, *Chicago*; DONALD SROAT, *Chicago*; H. SAUL SUGAR, *Detroit*; STEVEN STILES, *Chicago*; DAVID S. WATSON, *Chicago*; FRANK J. WEINSTOCK, *Canton, Ohio*; DAVID WELLINGTON, *Chicago*; OTTO A. WIEGMANN, *Milwaukee*; HENRY B. WILSON, *Baltimore*; JOSEPH WOLSHYTN, *Jerusalem, Israel*; JAMES M. WOODWARD, JR., *Denver*; TSUYOSHI YAMASHITA, *Columbia, Missouri*

SCIENTIFIC REFEREES

1968

THE FOLLOWING SCIENTIFIC REFEREES AIDED THE EDITORIAL BOARD DURING 1968 IN THE
EVALUATION OF MANUSCRIPTS:

THOMAS BEHRENDT
RAYNOLD N. BERKE
HERMANN M. BURIAN
CHARLOTTE A. BURNS
EDWARD COTLIER
JOSEPH M. DIXON
PHILIP P. ELLIS
TIBOR G. FARKAS
JOHN W. FERREE
BEN S. FINE
SIDNEY A. FOX
MARCEL FRENKEL
LOUIS J. GIRARD
MELVIN S. GRIEM
ROBERT W. HOLLENHORST
RICHARD E. HOOVER
WILLIAM F. HUGHES

CARL C. JOHNSON
HERBERT E. KAUFMAN
CHARLES D. KELMAN
V. EVERETT KINSEY
STEVEN G. KRAMER
HARVEY A. LINCOFF
JOHN C. LONG
DAVID MILLER
ROBERT A. MOSES
EDWARD OKUN
ARNALL PATZ
CHARLES L. SCHEPENS
ARTHUR L. SILVERSTEIN
DANIEL SNYDACKER
H. SAUL SUGAR
RICHARD C. TROUTMAN

SUBJECT INDEX

ORIGINAL ARTICLES, AND NOTES, CASES, INSTRUMENTS

Note: Abstract Index follows Author Index

A

- Acid burns, eye, 654
 Alpha chymotrypsin and cataract surgery, experimental study, 528
 Amphotericin B, for presumed *Histoplasma chorioretinitis*, 101
 Ampicillin for conjunctivitis, penicillin-resistant, 427
 Amyloid tumor, perilimbal, 515
 Anemia, severe, retinopathy in, 1102
 Angiography, fluorescein, of optic disc edema in hyperthyroidism, 714
 Anterior chamber, flat, after cataract extraction, phenylephrine pack for, 881
 Anterior cleavage syndrome with Marfan's syndrome, 272
 Antibiotics, subconjunctival, aqueous humor assays of, 430
 Anti-DNA, intermittent appearance in uveitis, 909
 Antilymphocyte serum, *Candida keratitis* potentiation by, 804
 Aqueous dynamics, iridectomized eyes, effect cyclopentolate on, 543
 Aqueous humor, assays, of antibiotics, subconjunctival, 430
 Aqueous veins, definition of, 532
 Arthritis, rheumatoid, polycondritis, relapsing, and blindness, 890
 Australian aboriginals, ophthalmic studies, 1020

B

- Biomicroscopy of eye, 789
 Blindness, polycondritis, relapsing, rheumatoid arthritis and, 890

BOOK REVIEWS:

- Allen, James H. (ed.): *Strabismus Ophthalmic Symposium*, 564
 Arruga, A. (ed.): *International Strabismus Symposium*, Giessen, 1966. XXth International Congress of ophthalmology, 136
 Becker, Bernard (Chrm.): *Vision and its Disorders*. Subcommittee on Vision and its Disorders of the National Institutes of Health, 757
 Di Chio, Giovanni: *An Atlas of Pathologic Pneumoencephalographic Anatomy*, 356
 Dufour, R., Meyer-Schwickerath, G., Fison, L. and Guilaumat, L. (eds.): *Modern Problems in Ophthalmology*. Volume 7. XXth International Congress of Ophthalmology, Munich, 1966, 973
 Friedenwald, Harry: *Jewish Luminaries in Medical History: A Catalogue of Books Dealing on the Subject of the Jews*, 563
 Friedenwald, Harry: *The Jews and Medicine*. Essays. Volumes 1 and 2, 563
 Girard, Louis J. (ed.): *Corneal and Scleral Contact Lenses*. Proceedings of the International Congress, 565
 Graham, Milton D. and Robinson, Robert L. (eds.): *851 Blinded Veterans: A Success Story*, 758
 Hallenbeck, Phyllis N.: *Dogmatism and Visual Loss*, 357
 Hughes, William F. (ed.): *Year Book of Ophthalmology*. 1967-1968, 139
 Irvine, W. James (ed.): *Thyrotoxicosis*. Proceedings International Symposium, Edinburgh, 355
 Juurmas, Jyki: *Ability Structure and Loss of Vision*, 355
 Keeney, Arthur H. and Keeney, Virginia T.: *Dyslexia: Diagnosis and Treatment of Reading Disorders*, 974
 Klein, D. and Amalric, P. (eds.): *Comptes Rendus du 1er Congres International de Neuro-Genetique et Neuro-Ophthalmologie*, 759

- Lee, Barbara M. (chrm.): *The First International Congress of Orthoptists*, 1186
 McPherson, Alice (ed.): *New and Controversial Aspects of Retinal Detachment*, 137
 Myklebust, Helmer R. (ed.): *Progress in Learning Disabilities*. Volume 1, 137
 Ogle, Kenneth N.: *Optics. An Introduction for Ophthalmologists*. Edition 2, 759
 Opitz, H. and Schmid, F.: *Handbuch der Kinderheilkunde*, 759
 Paton, David and Goldberg, Morton F.: *Injuries to the Eye, the Lids, and the Orbit*, 1186
 Paufigue, Louis (ed.): *Progres en Ophtalmologie*, 757
 Rapaport, Felix T. and Dausset, Jean (eds.): *Human Transplantation*, 1185
 Roper-Hall, M. J., Sautter, H. and Streiff, E. B. (eds.): *Fortschritte der Augenheilkunde*. Volume 19, 565
 Sampaulesi, R. (eds.): *Modern Problems in Ophthalmology*. Volume 6. First South American Glaucoma Symposium, Bariloche, Argentina, 1966, 356
 Sarau, Henri, Rousselle, Françoise and Coscas, Gabriel: *Optique Medicale Pratique*, 974
 Seeman, Bernard: *Your Sight: Folklore, Fact and Common Sense*, 356
 Sheppard, Joseph J., Jr.: *Human Color Perception. A Critical Study of the Experimental Foundation*, 975
 Shikana, Shinichi and Shimizu, Koichi: *Atlas of Fluorescence Fundus Angiography*, 1184
 Weigelin, E. (ed.): *Proceedings of the XX International Congress of Ophthalmology*, 135
 Burns, acid, of eye, 654

C

- Calcification, ocular, in hyperparathyroidism, 804
Candida keratitis, potentiation by antilymphocyte serum, 804
 Cannula, with knife-needle, cataract aspiration, 961
 Carbon dioxide laser, experimental, 604
 Carcinoma, of sphenoid sinus, from radium poisoning, ophthalmologic aspects, 55
CATARACT
 congenital, extraction
 intracapsular, two stages, 683
 intralenticular hemorrhage following, 1163
 results, 539
EXTRACTION, alpha chymotrypsin, experimental study, 528
 couching, 687
 cryoextraction, 875
 flat anterior chamber following, 881
 ocular tension following, 523
 sutures, 947
 secondary, microwave radiation, 866
 Cephaloridine, intraocular penetration, humans, 1042
 Cephalothin, intraocular penetration of, animals, 436
 humans, 441
 Chloramphenicol, stable solution for ocular infections, 104
 Chorioretinitis, *Histoplasma*, presumed, amphotericin B for, 101
 sclopetaria, 852
 Choroid, ischemic infarcts of (Elschnig spots), 1069
 malignant melanoma, disappearance of pigment after photocoagulation, 443
 Choroidopathy, Elschnig's spots and, 844
 Ciliary body, leiomyoma of, 1061
 tumors, surgery for, 173
 Congenital anomalies, trisomy 18, ocular manifestations, 59
 Congenital cystic eyeball, 504

- Conjunctiva, closure, in strabismus surgery, 750
 papillomata of, cryotherapy for, 872
 Conjunctivitis, bilharzial, 933
 penicillin-resistant, ampicillin in, 427
 Contact lenses, endophthalmitis and, 960
 in infant, aniridic, nystagmus remission after, 333
 scleral, cosmetic, 95
 sonic sterilization, 1175
CORNEA, brittle, with blue sclera, familial trait, 67
 changes, in trachoma community, in childhood, 909
 in infancy, 909
 deposits, indomethacin, retinal sensitivity and, 825
 epikeratoprosthesis, 641
 graft failures, histopathology of, 184
 infections, experimental, nalidixic acid evaluation, *Proteus* keratitis, 447
Pseudomonas keratitis, 447
 injury threshold, to laser radiation, 1
 keloid of, 319
 prostheses, buried silicone, 633
Pseudomonas infection of, rabbit, 276
 transplantation, lamellar, in rabbit, 1111
 trephines, from razor band, 749
 vascularization, hyperbaric oxygenation and, rabbit, 107
 prevention of, 1118
 wound healing, diphenylhydantoin, in rabbit, 736
 wound strength, effect corticosteroids on, 1131

CORRESPONDENCE:

- Congenital rubella syndrome, 1182
 Mechanism of locomotion observed on caterpillar hairs, 354
 Technique for iridocyclectomy, 973
 Corticosteroids, glaucomatous cupping, rapid progression due to, 520
 topical, effect on corneal wound strength, 1131
 in family with glaucoma-suspect twins, 658
 Cryopexy, for retinoblastoma, 870
 Cryosurgery, for glaucoma, 1034
 Cryotherapy, of papillomata, conjunctival, 872
 Cryptophthalmos-syndactyl syndrome, 897
 Cyclopentolate, effect aqueous dynamics, follow-up peripheral iridectomy in, 543
 Cysticercosis, ocular, 1168
 Cystinuria, penicillamin therapy for, retinal hemorrhages during, 954

D

- Dehydration, ocular, 233
 Diabetic retinopathy and photocoagulation, 597
 Diphenylhydantoin, oral, in corneal wound healing, 736
 Down's disease, keratoconus, acute in, 1137
DRUGS, amphotericin B, 101
 antimalarial, ocular toxicity of, long-term follow-up, 738
 cephaloridine, 1042
 chloramphenicol, 104
 cyclopentolate, 543
 diphenylhydantoin, 736
 diuretic, in glaucoma, 680
 Hetrazan, 215
 indomethacin, 825
 phenylephrine, 881
 pilocarpine, 835
 tropicamide, 835
 vincristine sulfate, 199

E

- Ectropion, euryblepharon with, 554

EDITORIALS:

- American Ophthalmological Society, 1968, 349
 Annual Spring Meeting of the Association for Research in Ophthalmology, 127
 Association for Research in Ophthalmology, 1180
 Club Jules Gonin, 561
 National Eye Institute, 754
 On the reviewing of books, 756
 117th Annual AMA Convention, 1968, 350
 Ophthalmology residency appointments, 1181
 Serodiagnosis of syphilis, 972
 The ophthalmologist in the premature nursery, 969
 Electron microscopy, heterochromia irides, dogs, 1152

- of leiomyoma of ciliary body, 1061
 Elschnig spots, and choroidopathy, hypertensive, 844
 of choroid, 1069
 Emphysema, periorbital, 1166
 Endophthalmitis, and contact lenses, 960
 staphylococcal, infusion therapy for, dog, 295
 Enucleation, lid scalding during, 336
 Epiblepharon, 1172
 Epicanthus, 939
 Epikeratoprosthesis, 641
 Euryblepharon with ectropion, 554
 Exotropia, intermittent, overcorrected, 80
 Eyeball, congenital cystic, 504
 Eyelids, hemangiopericytoma of, 731
 scalding during enucleation, 336
 Eyes, acid burns of, 654
 biomicroscopy of, 789
 dehydration of, 233

F

- Fascia lata, grafting, in scleromalacia perforans, 705
 Fluorescein studies, retinal pigment epithelium, 470
 hyperthyroidism, 714
 of macular degeneration, hereditary, 470
 ultrasound and, in diagnosis of intraocular tumors, 719
 Foreign bodies, intraocular, management of, 279
 paralimbal, with filtering effect, 92
 Fundus, in pseudoxanthoma elasticum, 236
 photography, and ophthalmology, 1011

G

- GLAUCOMA**, angle-closure, elevated intraocular pressure in prone position as test for, 661
 chronic simple, cryosurgery for, 1034
 cupping, rapid progression precipitated by corticosteroids, 520
 drugs, diuretic in, 680
 malignant, treatment of, 495
 suspect twins, corticosteroids in family with, 658
 Gonioscopy, ophthalmoscopic, 549
 Granuloma pyogenicum, epibulbar tumor, 957

H

- Hemangiopericytoma, eyelids, 731
 orbit, 731
 Heredity, cornea, brittle, with blue sclera, 67
 macular degeneration, vitelliruptive, fluorescein studies of, 470
 Heterochromia, hyperchromic traumatic, 710
 Heterochromia irides, dog, electron microscopy of, 1152
 Hetrazan, ocular penetration in rabbits, 215
 Himalayas, vision survey in, 113
 Histoplasma chorioretinitis, presumed, Amphotericin B for, 101
 Homocystinuria, 884
 Hyperbaric oxygenation, corneal vascularization and, rabbit, 107
 Hyperparathyroidism calcification, ocular in, 804
 Hyperthyroidism, without exophthalmos, in optic disc edema, fluorescein angiography, 714

I

- Indomethacin, reduced retinal sensitivity, corneal deposits and, 825
 Infusion therapy, for *Pseudomonas* and endophthalmitis, dogs, 295
INSTRUMENTS, cannula, with knife needle, cataract aspiration, 961
 new device for hand and arm support in ophthalmic surgery, 345
 operating microscope, motorized, modified foot-control panel for, 118
 refractor, pocket, 958
 scleral depressor, new, 117
 squint light, head-mounted, for motility testing, 549
 Zeiss operating slitlamp, microscope, modified, 956
 Intraocular pressure: See Ocular tension
 Iridectomy, follow-up, prophylactic, 543
 Iridocyclectomy, technique for, 42
 Iris, pigment epithelium, neoplasms of, 31
 tumors, surgery for, 173
 Isometric chart, ophthalmic, 750

K

- Keloid, of cornea, 319
 Keratitis, *Candida*, potentiation by antilymphocyte serum, 804
 experimental, nalidixic acid, 447
 fungal, laboratory diagnosis in, 646
 Proteus, experimental, nalidixic acid in, 447
 Pseudomonas, experimental, nalidixic acid in, 447
 Keratoconjunctivitis, superior limbic, 338
 Keratoconus, acute, in Down's disease, 1137
 Keratoplasty, failures, histopathology of, 184
 Lamellar, in rabbit, 1111
 machining donor material for, 341
 penetrating, rabbit, 899

L

- Lacrimal apparatus, lacrimal sac, malignant melanoma of, 45
 Leiomyoma, of ciliary body, electron microscopy of, 1061
 Lenticonus, posterior, 1133
 LASERS, experimental, carbon-dioxide, 604
 neodymium, 614
 hazards, ocular spectral characteristics related to, 15
 Q-switched ruby, ocular effects produced by, 459
 radiation, corneal injury threshold, 1
 transscleral, ocular hazards, 21
 lysozyme levels

M

- Macula, degeneration, hereditary, fluorescein studies, 470
 vascular lesions, photocoagulation of, 452
 Mandibulofacial dysostosis syndrome of Franceschetti, and oculo-auriculo-vertebral dysplasia syndrome of Goldenhar, relationship between, 510
 Marfan's syndrome with anterior cleavage syndrome, 272
 Measles (Morbilli), maternal, retinopathy following, 1107
 MEETINGS: See also Editorials
 Kresge Eye Institute, 347
 Manhattan Eye, Ear and Throat Hospital: Centennial symposium, 963
 New England Ophthalmological Society, 124, 125
 1968 Japanese Association of Ophthalmology, 1177
 Oxygen Therapy and Retrolental Fibroplasia, 752
 University of Toronto, 556
 Wilmer Residents Meeting, 121
 Megalocornea in twins, identical, 734
 Melanoma, malignant, of choroid, photocoagulation, disappearance of pigment after, 443
 of lacrimal sac, 45
 Microscope, operating, 118
 Mosaic dystrophy in twins, identical, 734
 Motility testing, squint light, head-mounted, for, 549
 Muscles, extraocular, influence co-contraction on globe length, 906
 Myeloma, multiple, chorioretinal destruction in, 52

N

- Nalidixic acid, experimental, 447
 Neodymium laser, experimental, 614
 Neoplasms: See Tumors
 Norrie's disease, 328
 Nystagmus, in aniridic infant, remission after contact lenses, 333

O

- OBITUARIES
 Franceschetti, A., 134
 McLean, John M., 128
 Romaine, Hunter H., 353
 Ocular tension, after cataract extraction, 523
 applanation tonometry, 89
 elevated, in prone position test for angle-closure glaucoma, 661
 Operating microscope, motorized, foot control panel, modified for, 118
 Ophthalmology, geographic, Australian aboriginals, 1020
 twin studies in, 323
 X-rays, diagnostic bone-free in, 264
 Optic disc, edema, in hyperthyroidism without exophthalmos, 714

- in normal newborns, 502
 Optic nerve, distal portion, tissue pressure relationships, 373
 vascular relationships, 380
 Orbit, emphysema, related to oral surgery, 1166
 hemangiopericytoma of, 731
 rhabdomyosarcoma of, X-ray treatment of, 745

P

- Pelizaeus-Merzbacher syndrome, neuro-ocular considerations, 1143
 Penicillamine, therapy of cystinuria, retinal hemorrhage during, 954
 Phenylephrine, pack, for flat anterior chamber following cataract extraction, 881
 Photocoagulation, diabetic retinopathy and, 537
 malignant melanoma, choroid, disappearance of pigment after, 443
 retina, centrifugal nerves two weeks after, 221
 vascular lesions of macula, 452
 Phosphorus, radioactive, 537
 Photography, and ophthalmology, 1011
 Pilocarpine, pupillary light response following, 205
 Polychondritis, relapsing rheumatoid arthritis, blindness and, 890
Proteus keratitis, experimental, nalidixic acid in, 447
Pseudomonas, infection of rabbit cornea, 276
 infusion therapy for, dogs, 295
 keratitis, experimental, nalidixic acid in, 447
 Pseudoxanthoma elasticum, fundus in, 236
 Pterygia, multiple bilateral, 305
 Pupil, light response, following pilocarpine, 835
 following tropicamide, 835
 tonic, following atropine, 551

R

- Radiation, microwave, cataract secondary to, 866
 retinopathy, 860
 Radium, carcinoma of sphenoid sinus induced by, 55
 Refractor, pocket, 958
 RETINA, degeneration, pigmentary unilateral, 1091
 detachment in, distribution of retinal breaks, 928
 experimental, in owl monkey, reattached retina, 1075
 in owl monkey, production and clinical picture, 388
 retinal and pigment epithelium in, electron microscopy, 410
 histology, 396
 effect vincristine-sulfate on, rabbit, 199
 hemorrhages, during penicillamine therapy of cystinuria, 954
 photocoagulation, centrifugal nerves two weeks after, 221
 pigment epithelium diseases affecting, fluorescein studies, 470
 sarcoma, reticulum cell of, 205
 sensitivity, indomethacin, corneal deposits and, 825
 separation, blood, subretinal in, 300
 Retinoblastoma, cryopexy for, 870
 10-year review, 1050
 treatment of, 49
 Retinopathy, in anemia, severe, 1102
 pigmentary, following maternal measles (Morbilli), 1107
 radiation, 860
 See also Diabetic retinopathy
 Rhabdomyosarcoma of orbit, X-ray treatment, 13-year survival without recurrence, 745
 Rubella, cataracts, surgical results in, 539
 congenital, ocular defects in, 269

S

- Sarcoma, reticulum cell, of retina, 205
 of uvea, 205
 Sclera, blue, with brittle cornea, familial trait, 67
 contact lenses, cosmetic, 95
 depressor, 117
 shells, cosmetic, 95
 Scleromalacia perforans, fascia lata grafting in, 705
 Silicone, prostheses, corneal, 633
 Sinus, sphenoid, carcinoma, radium-induced of, ophthalmologic aspects, 55

Smog, eye irritation, tear lysozyme levels in, 76
Solomon Islands ophthalmic survey in, 304
Strabismus, surgery, conjunctival closure in, 750
Sutures, corneoscleral, loop retrieval without instrumentation, 748
 in cataract surgery, 947
Surgery, ophthalmic, new device for hand and arm support, 345
SYNDROMES, anterior cleavage, 272
 cryptophthalmos-syndactyly, 897
 Franceschetti's mandibulo-facial dysostosis, 510
 Goldenhar's oculo-auriculo-vertebral dysplasia, 510
 Marfan's, 272
 Pelizaeus-Merzbacher, 1143

T

Tears, lysozyme levels in smog eye irritation, 76
 Schirmer strips for quantitative determination, 70
Tests, for angle-closure glaucoma, elevated intraocular pressure in prone position, 661
 motility, squint light, head-mounted, for, 549
Tonometry, applanation, repeated, 89
Trabeculotomy, new method, 673
Trachoma, community, corneal changes in, infants and children, 909
 cultivation four strains in allantoic cavity chicken egg, 110
Trepine, corneal, from razor band, 749
Trisomy 18, ocular manifestations, 59
Tropicamide, pupillary light response following, 835
TUMORS, amyloid, perilimbal, 515
 carcinoma, of sphenoid sinus, radium-induced, 55
 epibulbar, granuloma pyogenicum, 957
 intraocular, fluorescein and ultrasound to diagnose, 719
 leiomyoma of ciliary body, 1061
 of ciliary body, surgery for, 173

 of iris, surgery for, 173
 of iris pigment epithelium, 31
 retinoblastoma, cryopexy for, 870
 10-year review, 1050
 sarcoma, reticulum cell, 205
Twins, glaucoma-suspect, corticosteroids, topical, in family with, 658
 identical, megalocornea in, 734
 mosaic dystrophy in, 734
 ophthalmologic studies of hereditary and environment of, 323

U

Ultrasound, fluorescein and, in diagnosis of intraocular tumors, 719
Uvea, sarcoma, reticulum cell of, 205
Uveitis, anti-DNA in, intermittent appearance of, 909

V

Varicella, tonic pupil following, 551
Vincristine sulfate, effect on retina, rabbit, 199
Vision, peripheral, effect on binocular relationship, 86
 survey in Himalayan area, 113
Visual fields, changes with loaded illumination, 245
Von Hippel Lindau disease, in treated and untreated eyes, histopathologic findings, 693

W

Watchbird Concept Cluster, idea and amulet, 284

X

X-rays, diagnostic bone-free, in ophthalmology, 264
 treatment, of rhabdomyosarcoma, orbit, 13-year survival without recurrence, 745

Z

Zeiss operating slitlamp microscope, modified, 956

ABSTRACT INDEX

A

- Accident compensation, simulation problems in, 1208
 Accommodation, and convergence, relative range of, 1191
 mechanism of, 153
 microfluctuations, effect on visual acuity, 579
 purposeless, of amblyopic eyes with eccentric fixation, 160
 Acetylcholine, for glaucoma, 768, 1198
 Acetylcholine, 5-hydroxytryptamine and, levels of lateral geniculate bodies and superior colliculus after visual deafferentation, 571
 Achromat, adapto-electroretinography in, 573
 Adaptation, contribution to phenomenon of brightness constancy, 1190
 effect on apparent brightness, 1190
 variations at different levels, chromatic sequences at, 1189
 Adapto-electroretinography (AERG), in achromat, 573
 Adaptometer, automatic, with electro-luminescent panel lamp, 584
 Hartinger, 994
 Adenosine 5'-phosphate, catabolism by ciliary processes, hog, 574
 Aftercataract, new instrument for extraction, 156
 AGE, and corneal erosion healing, 162
 and glare, 576
 blindness due to temporal arteritis, occult, 359
 effect regeneration of lens epithelium and lens capsule in cataract, 1199
 lighting needs with, 761
 optic neuritis and prognosis in, 774
 retinal pigment epithelium changes with, 1004
 Alacrima, 366
 Albinism, ocular, and Xg, 1189
 Albino, Hereford cattle, 979
 Alcohol, influence on cortical response, 149
 Alexandria, conjunctival flora in hospitals in, 150
 Alkaline phosphatase, in eye of *Culotes versicolor* in light and dark, 1190
 Allergens, inhalant, value of eye tests with, 783
 Alpha crystallin, from mammalian lenses, 990
 of calf lens, 989
 polypeptide chains of, 989
 AMBLYOPIA, accommodation in, with eccentric fixation, 160
 ex anopsia, in Egypt, 161
 in aniridia, prophylaxis of, 761
 in esotropia, 161
 prognosis for short-term treatment, 765
 late results in treatment of, 159
 occlusion for, 160
 plaster occluder for, 582
 screening preschool children for, 1209
 strabismic, visual acuity in, low illumination to diagnose, 160
 therapy, 160, 586
 Amblyoscope, major, to study V-syndrome, 995
 Aminoaciduria, lens opacity formation and, 1002
 Amitriptyline (¹⁴C), distribution in cat eye, 1193
 Amphibia (*Rana pipiens*), lens proteins of, 572
 Amyloidosis, of conjunctiva, 164, 997
 of cornea, 767
 of eyelids, 997
 Anastomosis, carotid-basilar, persistent, 1005
 Anemia, parasitic, as cause of convergence insufficiency, 996
 sickle cell, fluorescein fundus photography in, 995
 ANESTHESIA, and adjunctive drugs, 761
 general, in ophthalmology, 156
 visual and auditory assessments of recovery from, 784
 ANESTHESIA (continued)
 local, severe shock after, 784
 retrobulbar, campimetric changes after, 581
 with sodium methoxital in cataract extraction, 770
 Aneurysm, arteriovenous, and unilateral exophthalmos, infant, 777
 capillary, in glaucoma, 593
 Angiocardigraphy, effect on erythrocyte aggregation in conjunctival vessels, 764

- Congenital anomalies, ankyloblepharon filiforme adnatum with cleft lip and palate, 982
- Congenital malformation syndrome, 981
- CONJUNCTIVA, amyloidosis of, 164, 997
 bulbar, electron microscopy in diabetic patients, 1006
 tuberculosis of, 1197
 cysts, true epithelial, and cysts pushing conjunctiva, 165
 electron microscopy of capillaries, nondiabetic patients, 1006
 epithelium, adaptation ability of, 766
 eyelids, lacrimal apparatus and, 779
 flora, in hospitals in Alexandria, 150
 fornix, mucous thread in, 164
 reconstruction of, 162
 immunoglobulins in, 151
 leukoplakia of, 164
 lymphoma, idiopathic of, 1197
 melanoma of, 1206
 mucous gland system of, 996
 nevus of, 1206
 new division shown by X-ray, 140
 sac, fluid, cytology in corneal graft reaction, 997
 fungal flora of, influence corticosteroids on, 1191
 uptake of radioactive agent, 153
 superficial digitiform structures of, 997
 tuberculosis, primary, 162, 163
 vessels, effect angiocardiology on erythrocyte aggregation of, 764
 wounds, blood loss from, 993
- CONJUNCTIVITIS, and antibiotic therapy, 991
 fiberglass, 586
 follicular, psittacosis agents isolated from, sheep, 1191
 inclusion, infection in guinea pigs produced by agents of, 992
 oculogenital infections and, laboratory diagnosis of, 760
 venereal nature of, 760
 ligneous, 765
- CONTACT LENSES, 152
 and corneal epithelium, 163
 "apex," 152
 corneal, fitting of, 153
 single vision, to correct presbyopia, 152
 cosmetic indication for, 578
 evaluation of, 578
 for infants, aphakic, 152

CONTACT LENSES (*continued*)

- micro-, and total astigmatism, 580
- scleral, flush-fitting, 992
- slitlamp microscopy of, 579
- soft scleral, 153
- three-mirror, for fundus examination, 156
- to correct aphakia in infants, 761
- unilateral, in children, 761
- Convergence, accommodation and relative range of, 1191
- asymmetric, in stereoscopic frame of reference, 160
- insufficiency, due to parasitic anemia, 996
- CORNEA, affections, glaucoma secondary to, 594
- amyloidosis of, 767
- and sclera, 997
- beef, resting potential of, 991
- cell cultures of, rabbit, 1196
- cholinesterase, in rabbit cornea, histochemical proof, 998
- complications from cryoextraction of cataracts, 588
- degeneration, band-shaped, primary and familial, 980
- dermo-chondro-corneal dystrophy (François), 143
- deturgescence, mechanical factors, 163
- diseases, medical and surgical treatment, 1197
- dystrophy, hereditary, 766
 - histologic and electron microscopic investigations, 998
 - lattice, 587, 982
- effect Na, K, and Cl ions on transcorneal potential, 986
- endothelium, artificial, 766
- epithelium,
 - after sensory denervation, electron microscopy of, 996
 - and contact lenses, 163
 - in vivo status of metabolites in, rapid freeze method of, 987
 - inadequacy of aldehyde fixatives, monkey, 1197
 - rabbit, 1197
- erosion, healing of, age effect, 162
- recurrent, hereditary of, 587
- fistula, keratoplasty for, 161
- graft reaction, cytology of conjunctival sac fluid in, 997
- quantitative steroid effect on, 588
- grafts, fixation of, 161
- hematogenous pigmentation, 1196
- herpes simplex of keratoplasty, therapeutic for, 586
- Hudson-Stahli line, 765, 766
- human eye-bank, viability of, 766
- hypersensitivity to herpes simplex, 588
- in experimental keratitis, guinea pig, 765
- inflammation in childhood, myopia secondary to, 152
- influence of different media on cell morphology and rubella virus titer in cell line SIRC, rabbit, 151
- lactic acid dehydrogenase of, 989
- lattice dystrophy of, 587
- limiting membranes, degeneration of, 766
- lipid dystrophy of, 1197
- lipids, functional importance of, 573
- micro-, and exophthalmos, 143
- monkey, organotype culture of, 998
- nonviable, for keratoplasty with artificial endothelium, 587
- opacity, congenital central, 1197
- pigmentation by epinephrine bitartrate, 1193
- rabbit, plaque assays of rubella virus, 991
- refractive power, changes after cataract extraction, 358
- reology of, 1197
- steady-state distribution of oxygen in, 990
- stereo-ultrastructure of, 142
- stroma, electrolyte content, rabbit, 146
- fluorescein diffusion in, 998
- fractionation of mucoproteins, bovine, 147
- in keratoconus, electron microscope study, 1197
- regeneration, iodide uracil-deoxyriboside in, 164
- superficial, "new" iron line of, 766
- surgery, 588
 - current trends, 163
 - limbic gutter as aid to, 161

CORNEA (*continued*)

- tension lines from sutures, consequent astigmatism, 588
 - thickness, after topical corticosteroid therapy, 1192
 - and intraocular pressure, 587
 - central, 588
 - measured with different instruments, 998
 - peripheral, 588
 - tissue, preservation for grafting, bovine, 588
 - transparency, 1196
 - photocoagulation to preserve, 1196
 - ulcers, in dog, 1188
 - Medecassol to treat, 156
 - vascularization, effect Thio-TEPA on, 1195
 - wounds, Medecassol to treat, 156
 - Corneoretinal potential, automatic recording and evaluating, 765
 - oscillation, parameter variations of model of, 985
 - Corneoscleral limbus, limits and dimension, 1188
 - tumors and pseudotumors of, 782
 - Cortex stimulation, changes in visual recovery functions with, 984
 - CORTICOSTEROIDS, -antibiotic preparation, in ocular inflammation, 761
 - Cushingoid status induced by, 993
 - for optic nerve involvement, 993
 - in ophthalmology, 155
 - influence on fungal flora of conjunctival sac, 1191
 - quantitative effect on corneal graft reaction, 588
 - therapy, intrathecal, in Vogt-Koyanagi-Harada uveo-meningitis, 589
 - to treat children, cataracts after, 358
 - topical, corneal thickness after treatment with, 1192
 - effect on intraocular pressure, 591
 - systemic absorption of, 762
 - Corticotrophin, therapy, cataracts after, 581
 - macular lesions after, 581
 - Cortisone, topical, for zoster ophthalmicus, 150
 - Crayfish, visual pigments, 1187
 - Cryoextraction, of cataract, 770
 - corneal complications from, 588
 - Cryogenic device, in cataract extraction, 1200
 - Cryophophysectomy for diabetic retinopathy, 363
 - Cryosurgery, 156
 - in cataract extraction, 359
 - of ciliary body, 769
 - silicone to prevent adherence in, 583
 - Cryotherapy, for keratitis, dendritic, 767
 - in retinal detachment surgery, complications of, 1003
 - ultrastructure of retina after, 774
 - Cryptophthalmos, partial, 982
 - Culotes versicolor, eye of, alkaline phosphatase activity in light and dark, 1190
 - Curie Foundation, Paris, 30-year observation of bulbar conjunctival epitheliomas, 782
 - Cushingoid status induced by topical corticosteroids, 993
 - Cyclitis, chronic, 1198
 - Cyclodialysis, and cataract extraction, simultaneous, 999
 - Cycloplegic refraction in children, 1192
 - Cyst, dermoid, and pseudotumor of orbit, 1204
 - plastic, 779
 - hydatid, of orbit, 779
 - orbital, congenital, with microphthalmos, 1204
 - pars plana, in multiple myeloma, 1206
 - scleral, 996
 - Cytoid bodies, 360
- D**
- Dacryoadenitis, acute, as manifestation of infectious mononucleosis, 780
 - Dacryocystography, 366
 - Dacryocystorhinostomy, with intubation of both canaliculi, 365
 - Daraprim intoxication, 993
 - Dark adaptation, A-wave in human electroretinogram during, 572
 - in isolated rat retina, 987
 - neural component in, 984
 - Dark-deprivation, effect on mosquito larval eye, 568
 - DEAE-cellulose, chromatographic studies of lens proteins, 573

- Degos' syndrome, 997
 Demecarium bromide, of ciliary epithelium after topical administration, 153
 Dermatitis, contact, allergic to proparacaine, 762
 Dermo-chondro-corneal dystrophy (François'), 143
 Dermoid cyst and pseudotumor, orbital, 1204
 Descemet's membrane, filiform dystrophy in front of, 996
 Deuteranomaly, variability in, 1189
 Dexamethasone, and Medrysone, comparison of effect on intraocular pressure, 1000
 eyedrops, 155
 Dextran perfusions to treat diabetic retinopathy, 775
 Diabetes, juvenile, ocular findings in, 784
 microangiopathy, hemorheologic factors in, 773
 Diabetes mellitus, and glaucoma, 999
 and ocular tension, 166
DIABETIC RETINOPATHY, 774
 arterial fluorescein studies in, 773
 cryohypophysectomy for, 363
 methandienone to treat, controlled trial, 1192
 proliferative, effect hypophysectomy on intraocular pressure in, 1198
 treated by dextran perfusions, 775
 treated by light coagulation, 362
 Di-aminodiphenoxypentane, retinal degeneration induced by, rabbit, 146
 Digitalis overdosage, optic neuritis and, 154
 Digoxin tension-lowering effect in glaucoma, 592
 Dimethyl sulfoxide, and corticosteroids, rabbit eye, 762
 effect on eyes, 1192
 lens, double-focus, produced with, 154
 ophthalmic evaluation, 763
 dog eye, 763
 toxic effects, 763
 oral and dermal application, ocular effects, 762
 Diplopia, 1194
 Discs, photoreceptor, fine structure of, 140
 Distichiasis, genesis and repair, 1006
 Diverticulum of rostral cerebral aqueduct, ocular dysfunction with, 777
 DNA synthesis, stimulation of in rabbit lens, 146
 Donders' theory of accommodative strabismus, 1195
 Doyné's honeycomb retinal degeneration, 1201
DRUGS, actions on single neurons of cat retina, 580
 anti-epileptic medication, Stevens-Johnson syndrome after, 154
 antimalarial, as antirheumatic agents, ocular toxicity of, 155
 azathioprine (Imuran) to treat uveitis, 155
 Bupatol, investigation of in fundus blood supply disturbances, 155
 carbon disulfide effect on eye, 580
 chloramphenicol, optic neuritis due to, 763
 chloroquine, neuromyopathy due to, 580
 ocular toxicity of, 580
 Daraprim, intoxication from, 993
 demecarium bromide, topical, ciliary epithelium studies after, 153
 dexamethasone eyedrops, 155
 digitalis, optic neuritis due to overdosage, 154
 dimethyl sulfoxide (DMSO), and steroids, rabbit eye, 762
 double focus of lens produced by, 154
 ophthalmologic evaluation of, 763
 oral and dermal, ocular effects in animals, 762
 toxic effects, 763
 eye damage from, 1192
 eye disorders induced by, electrodiagnosis of, 580
 eyedrops preservation of, 153
 gentamicin sulfate for bacterial infections, 154
 halothane, compared to trichlorethylene in strabismus surgery, 993
 Medecassol in treatment of corneal ulcers, corneal wounds, symblepharon and plastic surgery, 156
 metallocyanide in ophthalmology, 580
 N-methyl-N-nitrosourea retinal pigment degeneration induced by, 154
 newer compounds for herpes simplex keratitis, 154
 phosholine iodide effect on blood cholinesterase in glaucoma, 761
 proparacaine, contact dermatitis due to, 762
DRUGS (continued)
 psychedrine, in functional scotomas in strabismus, 993
 pyrrolidinomethyltetracycline in cavernous sinus thrombosis, 154
 radioactive uptake of, 153
 Tacostiptan in ocular surgery, 154
 triamcinolone diacetate, ophthalmic use, 762
 Urgocitron for herpes zoster ophthalmicus, 154
 Vincristine ocular complications with, 154
 Drusen, of optic disc, fluorescein angiography of, 362
 of ora serrata, pathologic anatomy of, 1201
 Dyschromatopsia, acquired, of glaucoma, panel D-15 and Farnsworth hue test in, 999
 Dyskeratosis, hereditary benign intraepithelial, 982
 Dyslexia, 785
 in teenage, 777
 Dysostosis, orbital, role in strabismus, 1194
 Dysplasia, craniometaphyseal, 981
 Dys trophy, filiform, in front of Descemet's membrane, 996
E
 Eales' disease, photocoagulation in, 772
 Early receptor potential, mode of generation, 575
 Eastman-910 monomer, as suture material, 584
 Eccentric fixation, bilateral, 1194
 Echothiophate, for glaucoma, 768
 in pregnancy, 993
 Eczema, contact, around the eye, 155
 Egypt, amblyopia ex anopsia in, 161
 Ehlers-Danlos-like syndrome, Leber's congenital amaurosis with, 980
 8-methoxypsoralen, photosensitization of eye with, compared to ultraviolet injury, morphologic changes, 582
 Electrical responses, human eye, Stiles-Crawford effect in investigation of, 574
 photostable, possible pigment for, 575
 Electrodiagnosis in drug-induced eye disorders, 580
 Electroencephalography, occurrence of alpha component, fluctuations in target visibility related to, 148
 response to light flashes, 985
ELECTRON MICROSCOPY, of aqueous humor cytology, 768
 of Canal of Schlemm, 142
 of capillaries of bulbar conjunctiva in diabetic and nondiabetic patients, 1006
 of chick retina receptors, 979
 of ciliary epithelium after topical demecarium bromide, rabbit, 153
 of cornea, 142
 of corneal dystrophy (Meesman-Wilke), 998
 of corneal epithelium, 996
 of corneal stroma in keratoconus, 1197
 of discs, photoreceptor, 140
 of herpeslike particles in iris, 992
 of herpes simplex virus, rabbits, 577
 of lens vesicle, embryonic, 143
 of motor nerve endings, humans, 569
 monkeys, 569
 of photoreceptors and receptor synapses in pure staff and rod retinae, 1202
 of retinal pigment epithelium in normal and diabetic rats, 772
 of trabecula cribriforme, 142
 Electronystagmography, clinical applications of, 1194
 Electro-oculography, for early diagnosis of chloroquine retinopathy, 772
 to diagnose phenothiazine retinopathy, 580
 Electoretinal responses, transient and steady-state, 989
ELECTRORETINOGRAM, absent, 582
 b, b'-iminodipropionitrile effect on, rats, 762
 effect elevated intraocular pressure on, rabbit, 590
 evoked by excitation of foveal cones, 985
 of octopus, anesthetized, 988
 photopic and scotopic differential, averaging techniques in, 764
 responses to light flashes in stabilized and normal retinal images, 985
 visual evoked potential, area-luminance relation and, 988

- ELECTRORETINOGRAPHY**, adapto-(AERG) in achromat, 573
 and retinal metabolism in vitro, 576
 A-wave in, during dark-adaptation, humans, 572
 before and after retinal detachment surgery, 773
 C-wave of, in retinal detachment secondary to choroidal tumor, 361
 flicker, of retina, isolated mammalian, 150
 for prognosis of retinal detachment surgery, 772
 light thresholds for, in dark-adapted eye and computer, 149
 Nuvistor preamplifier for, 1193
 of fovea, 582
 photopic, electronic peak-time measurements, human, 572
 response in compound eye, 572
 single flash, Purkinje shift in, cat, 149
 suppression of nonlinearities, pigeon, 145
 unusual, in traumatic macular changes, 771

 chemistry, physiologic of, 146
 compound, electroretinographic response, 572
 visual acuity of, 151
 contusion injuries of, 786
 damage from drug therapy, 1192
 drug-induced disorders of, electrodiagnosis, 580
 electrical activity in retinal detachment, 361
 electrical responses, photostable, possible pigment for, 575
 examination, automation of, 1191
 human, optical quality of, 152
 immobilization, surgical, to permit stable photic stimulation, cat, 582
 in systemic disease, 367
 inflammation of corticosteroid-antibiotic preparation in, 761
 monkey, autonomic innervation of, 568
 origin of, 570
 rabbit, autonomic innervation of, 568
 red, after renal failure, 784
 repercussion on, of reproductive life of woman, 367
 severely damaged, treatment of, 368
 small, new dominant eye mutant, mouse, 981
 ultrasound biometry of, 1191
 viral diseases of, prospects in treatment of, 151
Eyestalk, removal, effect on larval development of mud crab, 567
- F**
- Farnsworth lantern test** for color vision defect, 1193
Fascia lata, preservation and uses, 156
Fiberglass, conjunctivitis, 586
 keratitis, 586
Fibrinolysin, aqueous humor flow and, 590
Fibroplasia, interno-retinal, with macular degeneration, 1201
Fibrosarcoma, orbit, 781
Filiform dystrophy, in front of Descemet's membrane, 996
Filtering bleb for glaucoma, 592
Fistula, carotid-cavernous sinus, choroid detachment after, 589
 carotid sinus, fundus changes after surgery for, 776
 corneal, keratoplasty for, 161
 5-hydroxytryptamine levels of lateral geniculate bodies and superior colliculus, after visual deafferentation, cats, 571
Fixation device, for central field examination, 156
Flash blindness, 786
Flicker fusion, field, alteration of, 994
 phenomena, 986
FLUORESCIN, angiography: See Angiography, fluorescein
 diffusion in corneal stroma, 998
 intravenous, anaphylactoid reaction to, 762
 fundus degeneration findings with, 772
 photography of retinal circulation times, 764
 staining in retinal pigment degeneration, rats, 775
 studies, arterial, in diabetic retinopathy, 773
 in retinal vascular occlusion, 1004
Fluorescence, late-phase, of rabbit fundus, 589
 of visual pigment, 149
Forceps in cataract extraction, 1200
Foreign bodies, meningioma, intracranial from, 1203
 penetrating orbit, intracranial localization of, 368
FOVEA, absolute threshold, fixation of targets near, 989
 central, perception of contour orientation in, 573
 electroretinogram of, 582

FOVEA (continued)

- grouped pigmentation of, familial, 1188
- human, cortical responses to stimulation of, 575
- in human retina, 571
- François' syndrome, 570
- Friedenwald-Guyton operation for ptosis, 779
- modification of, 780
- Frog (*Rana pipiens*) retina, early receptor potential, 147
- FUNDUS, blood supply, disturbances of, Bupatol in, 155
- changes, regressive, after surgery for carotid-sinus fistula, 776
- circulation, rabbit eye, 141
- degeneration, findings with intravenous fluorescein, 772
- in sickle cell anemia, fluorescein photography of, 995
- late-phase fluorescence of, rabbit, 589
- photography, mechanisms of fluorescence in, 157
- transillumination with light coagulator, 584

G

- Ganglion, semilunar, eye muscle proprioception and, 141
- Gaucher's disease, 783
- Gaze, displacements and fixation in free search of visual scene, 579
- Gelatin, as implant in scleral buckling procedures, 1004
- Gentamicin for eye infections, bacterial, 154
- Gerbil (*Meriones unguiculatus*), effects of ischemic and other procedures on brain and retina, 778
- Glare and age, 576
- GLAUCOMA, acetyldine for, 768
- and cataract, combined operation for, 359
- one stage, 165
- and thyroid disease, 166
- angle-closure, iridectomy for, 768
- peripheral iridectomy in, 166
- precipitated by use of Phospholine Iodide for esotropia, child, 167
- provocative tests in, 166
- triple test for, 592
- aphakic, 165
- treated with combined pilocarpine (2%) and Neo-Synephrine (5%), 593
- associated with intraocular inflammations, 594
- capillary aneurysms in, 593
- cataract extraction in, after previous filtering operations, 167
- chronic, microdrilling of sclera for, 590
- treated with combined pilocarpine (2%) and Neo-Synephrine (5%), 593
- chronic simple, analysis of methods to detect, 592
- and glaucomatocyclic crises, 999
- tonographic studies of relatives of patients with, 1001
- clinics, in small eye units, 589
- externalization of, in Canal of Schlemm, 1199
- from concussion, 1001
- congenital, 1198
- evaluation of surgery for, 591
- in rubella, neonatal, 167
- secondary to chromosomal aberration, 769
- secondary to rubella, 769
- diabetes mellitus and, 999
- digoxin in, tension-lowering effect of, 592
- due to neurofibromatosis, gonioscopy findings, 589
- dyschromatopsia, acquired of panel D-15 and Farnsworth hue test in, 999
- early diagnosis of quantitative perimetry in, 593
- echthiophate treatment of, 768
- effect Phospholine Iodide on blood cholinesterase in, 761
- filtering bleb for, 592
- hypersecretion, 1001
- in pregnancy, echthiophate iodide for, 993
- infantile, new concepts, 593
- low-tension, 590
- problems of, 589
- malignant, Lindner vitreous fistula and, 594
- miotic therapy in, 771
- 1-adrenaline borate and pilocarpine, singly and in combination, 1199
- open-angle, advanced, circulation studies on patients with, 1000

GLAUCOMA (continued)

- early, papillary alterations in, 769
 - perimetry defects in, 769
 - Eppy in treatment of, 165
 - the case for conservative management, 591
 - operations, reactivation of filtering blebs after, 593
 - phacolytic, cytologic diagnosis using millipore filtration of aqueous, 590
 - prognosis, 593
 - screening, 591
 - ophthalmology and, 592
 - secondary, and subluxation of lens, ocular ochoronosis associated with, 368
 - causes of, 165
 - due to lens, 165
 - management of, 165
 - to intraocular hemorrhage, 165
 - to intraocular tumors, 594
 - to trauma, 165
 - seizures, pathomechanism of, role of vorticos system in, 769
 - simple, acetyldine in treatment of, 1198
 - simple, unilateral, and scleroderma on same side, 590
 - simplex, 166
 - surgery, combined with cataract extraction, 768
 - fistulizing, ocular hypotony after, 592
 - in progressive iris atrophy, 768
 - trabeculotomy for, 166, 768
 - unsuccessful operation for, lower goniotomy for, 768
 - which are not glaucomas, 999
 - Glioma, chiasm and optic nerve, 776
 - Glycerol, for glaucoma, 581
 - preoperative, in cataract surgery, 581
 - Gnathostomiasis, intraocular, 992
 - Goniotomy, lower, in aphakia, 768
 - in eyes unsuccessfully operated for glaucoma, 768
 - Gonioscopy findings, in glaucoma due to neurofibromatosis, 589
 - unusual, 586
 - Granuloma, eosinophilic, 1207
 - of orbit, 1204
 - lipid, of orbit, 778
 - Granulomatosis, Wegener's, ocular involvement in, 1207
 - Grasshopper eye, intracellular responses of, 141
 - Graticule for measurement of X-ray films for intraocular foreign bodies, 156
 - Graves' disease, pathogenesis and ophthalmopathy of, 783
 - Grid, for scoring visual fields, 1193
 - Guatemala, onchocerciasis in, 991
- H
- Hallucinations, visual, symptom of cranial arteritis, 1203
 - Halothane, trichlorethylene and, in strabismus surgery, 993
 - Hand-Schüller-Christian disease, 1207
 - Hartinger adaptometer, normal curves of, 994
 - Heavy eye phenomenon, 161
 - Hemionopsia, traumatic, 785
 - Hemophilia A, severe, cataract extraction in, 1200
 - Hemorrhage, in ocular surgery, 785
 - Heptachlor, cataracts in rats after long-term feeding of, 993
 - HEREDITY, cerebelloretinal degeneration, 982
 - congenital malformation syndrome, 981
 - corneal degeneration, band-shaped, primary and familial, 980
 - corneal dystrophy, 766
 - lattice, 587, 982
 - (Meesman-Wilke), 998
 - corneal erosions, recurrent, 587
 - dyskeratosis, hereditary benign intraepithelial, 982
 - grouped pigmentation of fovea, familial, 1188
 - Leber's congenital amaurosis with Ehlers-Danlos-like syndrome, 980
 - Leber's disease, 983
 - lymphohistiocytosis, ocular manifestations of, 1207
 - microcornea and enophthalmos, 143
 - nexus, choriorretinal, 767
 - ocular refraction and its components, family study on, 579
 - oculocerebral syndrome, new, with hypopigmentation, 980

HEREDITY (continued)

- of color vision, 983
- optico-acoustic nerve degeneration, and polyneuropathy, familial, 1203
- renofacial syndrome, 143
- small eyes—new dominant eye mutant, mouse, 981
- Von Hippel-Lindau disease, 569
- HERPES, ocular, management of, 586
 - ophthalmicus, unusual corneal lesion following, 161
 - simplex, corneal hypersensitivity to, 588
 - keratitis, newer compounds for, 154
 - mutant, isolated from IDU-resistant herpetic keratitis, 578
 - of cornea, keratoplasty for, 586
 - virus, in corneal stroma of rabbits with experimental keratitis, electron microscopy of, 577
- zoster, chorioretinal complications and, 760
 - ophthalmicus, Urgociton to treat, 154
- Heterochromia (Fuchs'), provocative tests in, 165
- Histiocytosis, idiopathic, 1207
- Histoplasmosis, ocular, 151
- Homocystinuria, ocular changes in, amino acids in aqueous humor, 1206
- Hormones, influence on animals, 155
- Hospital, multibedded rooms, ophthalmic patients preference for, 1209
- Hudson-Stahli line of cornea, etiologic studies, 766
- incidence and morphology, 765
- Hyderyne, topical, effect on aqueous humor dynamics, 593
- Hydrocephalus, papilledema and, with recurrent polyneuritis, 364
- Hydrogen ion concentration in tear fluid, 1205
- Hypercholesterolemia, experimental, fluorescence cineangiographic studies, 785
- histologic study of, 785
- Hypertension, chronic, retinal artery changes compared to other artery changes in, 1004
- Hyperthyroidism, ophthalmopathy of, 783
- Hyphema, traumatic, 1208
- Hypophysectomy, influence on intraocular pressure in diabetic retinopathy, 1198
- Hypopigmentation, new oculocerebral syndrome with, 980
- Hypopyon, retinoblastoma and, 781
- Hypotony, ocular, after fistulizing glaucoma surgery, 592

I

- IDU, herpetic keratitis resistant to, herpes simplex mutant isolated, 578
- Immunofluorescence to study alpha-crystallin in chicken embryo lens, 980
- Immunogenicity of trachoma vaccines, baboons, 991
- Immunoglobulin G, identification in rabbit vitreous, 990
- Immunoglobulins in conjunctiva, 151
- Imuran: See azathioprine
- Inborn metabolic disorders with associated ocular lesions, Northern Ireland, 367
- Incontinentia pigmenti, conjunctival, 1207
- retinal, 1207
- India, pseudoexfoliation of lens capsule in, 1200
- INFANTS, aphakic, contact lenses for, 152
- cerebral palsy in ophthalmologic aspect, 363
- contact lenses for aphakia in, 761
- exophthalmos, unilateral, and arteriovenous aneurysm in, 777
- fluorescein angiography in, 995
- glaucoma in, new concepts, 593
- Listeria infection in, 150
- visual world of, 149
- Influenza, effect ultraviolet irradiated homologous virus on, animals, 578
- INJURIES, alkali burns, autohemotherapy in, 1006
- eye, champagne cork, 1007
 - contusion of, 786
 - from caustic alkalis, intralaminar injections for, 767
 - initial treatment of, 368
 - occupational legislation on, 1007
 - paddy grain, 1208
 - malar fractures, ophthalmologic aspects of, 1005
 - radiation to eye of adult axolotl (*Siredon mexicanum*), 1007

- Innervation, autonomic, of monkey, cat and rabbit eyes, comparative study, 568
- Insect eye, larval, structure and function, 1188
- Insecticide (heptachlor), cataracts in rats after long-term feeding of, 993
- INSTRUMENTS, adjusting mirror for aluminum screens, 158
- applicators for continuous drip therapy in ophthalmology, 157
- Arruga needleholder, 994
- biviscope, 583
- footswitch for Dräger erisophake, 763
- graticule to measure X-ray films, 156
- Hartinger adaptometer, 994
- iris retractor, 156
 - for cataract surgery, 584
- Kelman cryostylet, 770
- lamellatome, 157
- L. B. supersonic, evaluation of therapy with, 158
- new, for iridectomy, 1193
- Obturator, ocular, 156
- oculopressor to produce intraocular hypotony, 156
- ophthalmoscope, indirect, new, 764
- sleeve spreader, for retinal detachment surgery, 763
- scleral indenter, 763
- slitlamp microscope in cataract surgery, 771
- tonometer, applanation, hand, 763
- topometer to measure ocular displacement, 583
- vision screener, 763
- Intraocular pressure: See ocular tension
- Intracellular responses, grasshopper eye, 141
- Iodide uracil-deoxyriboside influence on corneal stroma regeneration, 164
- Iowa, rehabilitation programs for blind in, 786
- Iridectomy, for glaucoma, angle-closure, 768
- new instrument for, 1193
- optical, 767
- Iridencleisis, in private practice, 1000
- Iridocyclitis, unilateral, erythroderma, atopic with, 981
- IRIS, atrophy, 163
 - progressive, glaucoma surgery in, 768
 - with venous block, 998
- choroidal coloboma, microphthalmia and, anal atresia with, 1188
- dorsal, lens regeneration from, salamander, 142
- graft inclusion, in glaucomatous human eyes, 165
- in normal rabbits, 165
- herpeslike particles in, electron microscopy of, 992
- light sensitivity of, 1197
- regeneration, in mammals, 978
 - of pigment layer defects, 1198
- retractor, 156
 - for cataract surgery, 584
- Ischemia of anterior segment, clinical syndromes of, 163

J

- Jaw-winking, surgical treatment of, 366, 1205

K

- Kelman cryostylet, cataract extraction with, 770
- KERATITIS, dendritic, cryotherapy for, 767
 - treatment with parafluorophenylalanine, 997
- fiberglass, 586
- herpes simplex, newer compounds in therapy for, 154
- herpetic, IDU-resistant, herpes simplex mutant isolated from, 578
- keratoplasty for, 164
- Shigella-produced, in guinea pig cornea, 765
- Keratoconus, associated with disseminated leukoencephalomyelitis and optic atrophy, 766
- corneal stroma in, 1197
- keratoplasty, for, 164
 - square for, 161
 - iris atrophy and, 163
 - unilateral, erythroderma, atopic with, 981
- Keratomalacia, evolution of, 586
- Keratomycosis, ultrastructure of, 164
- KERATOPLASTY, 163
 - auto-, 587
 - for corneal fistula, 161
 - for keratoconus, 164
 - in herpetic keratitis, 164

KERATOPLASTY (*continued*)

- lamellar, autogenous, 161
 - for pterygium, recurrent, 161
 - visual improvement with, 767
- lamellatome for, 157
- penetrating, 163
 - autogenous, 161
 - results of 100 cases, 588
- preservation of corneal tissue for, bovine, 588
- refractive, corneal section verification in, 588
- Stocker's, in edematous keratopathies, 1195
- therapeutic, in relation to herpes simplex of cornea, 586
- unusual indications for, 162
 - with artificial endothelium, nonviable cornea for, 587
- Keratoprosthesis, current status, 163
- Kidney transplant to treat Bright's disease, retinopathy of, 784

L

- Lacrimal apparatus, alacrima, 366
 - conjunctiva, eyelids and, 779
 - lacrimal canaliculus, repair of, 366
 - lacrimal gland, tumors, 1205
 - lymphoepithelial lesions of, Sjogren's syndrome and, 779
 - lacrimal sac, proliferation, fibroblastic, reactive of, 366
 - regeneration of, 366
 - tears, crystal and protein of, 366
- Lacrimal secretion, cat, 365
- Lactic acid dehydrogenase of cornea, 989
- Lamellatome, for keratoplasty, 157
- Lamella, basement, of choroid, 568
- Lamina elastica, choriocapillaris and, rat, 141
- LASER, clinical use, 158
 - for photocoagulation, 158
 - light, effect on retina, 361
 - neodymium, retinal injury due to, 361
 - phototherapy, 583
 - Q-switched, retinal lesions produced by, 1202
 - ruby, retinal injury due to, 361
- Lateral geniculate bodies, 5-hydroxytryptamine and acetylcholine levels, after visual deafferentation, cats, 571
- Lateral geniculate nucleus, optic nerve terminals after visual cortex stimulation, 144
 - retinal blockade effect on, 984
- Leber's congenital amaurosis with Ehlers-Danlos-like syndrome, 980
- Leber's disease, 983
- Leber's retinitis, photocoagulation in, 1201
- Lebistes, retina subsurface membranes in paired cone photoreceptor inner segments in, newborn, 568
- Leiomyoma, melanoma and, differential diagnosis by enzyme histochemical methods, 1006
- LENS, accommodation, occipital rhythm, eye position and, 987
 - aniseikonic slant, changes in direction as function of difference, 145
 - antigens, of *Xenopus laevis*, 991
 - organ specificity of, 991
 - biochemical changes from carbon disulfide poisoning, rabbit, 1192
 - bovine, triglycerides in, 989
 - capsule, pseudoexfoliation, in India, 1200
 - cell migration in, rabbit, 1200
 - rat, 1200
 - chick embryo, immunofluorescence of, alpha-crystallin in, 980
 - mathematical approach to measurements of, 570
 - cholesterol, modified method for estimation, 1002
 - coloboma, ectopic pupils and, 143
 - dislocated, extraction with preventive lens suture, 358
 - emmetropization effect of ultrasonography to study, 153
 - epithelium, enzyme activity in carbohydrate metabolism, 1190
 - glaucoma, secondary, due to, 165
 - growth, during insufficient protein intake, pig, 144
 - human, thin shell deformation analysis of, 576
 - isolation of triose phosphate isomerase from, 1190
 - loss of proteins of low molecular size in senile cataract, 594
- LENS (*continued*)
 - luxated, extraction from vitreous, 1200
 - mammalian, effects ionizing radiation and aging on, 1199
 - opacity, aminoaciduria and, 1002
 - porcine, growth as index to chronological age, proteins, DEAE-cellulose chromatographic studies, 573
 - free electrophoretic analysis of, 990
 - N-terminal groups of, 990
 - of amphibian, *Rana pipiens*, 572
 - of *Octopus vulgaris*, 979
 - structure of, 572
 - structural studies, 987
 - synthesis in embryonic chick, 570
 - treated with urea starch gel, electrophoresis of, 1191
 - rabbit, galactose-exposed, cation permeability changes, 990
 - regeneration, cell cycle during, 981
 - from iris, salamander, 142
 - resorption in persistent hyperplastic primary vitreous, 1200
 - ribonucleic acid, heterogeneity of, 1190
 - slitlamp photography for measuring, 1193
 - spherical, how to recognize, 152
 - stimulation of mitosis and DNA synthesis quantitative study, rabbit, 146

- vascular occlusion, fluorescein studies of, 1004
- vascular structures, rabbit, 141
- vein, central, fluorescein angiography of, 1202
 - occlusion, therapeutic trial of Atromid S in, 1201
 - visual streak of, ganglion cells in, rabbit, 577
- Retinal correspondence, changes with varying distances of fixation, 159
- Retinitis, neuro-, post-measles, 775
- pigmentosa and Coats' disease, 775
- rubella, 774
- Retinoblastoma, 367
 - and hypopyon, 781
 - conservative treatment of, 781
 - digitopalmar impressions of, 367
- Retinochoroiditis, toxoplasmic, experimental, 1191
- Retinoschrome, in octopus retina, 567
 - in squid retina, 567
- Retinopathy, central serous, persistent, 775
 - photocoagulation of, 1003
- chloroquine, electro-oculograms for early diagnosis, 772
- hypertensive, due to bilateral renal arteriolar stenosis, 1003

- Retinopathy (*continued*)
 of retinal detachment, after vascular occlusion, 1201
 phenothiazine, electro-oculography as diagnostic aid, 580
 pigmentary, 771
 Retinoschisis, juvenile, histopathology of, 773
 senile, clinical study of, 774
 Retinoscopy, cylinder, 152
 rack with cylindrical lenses, 584
 Retraction phenomenon, and strabismus convergens sursumadductorius, 1195
 Retraction syndrome, 160
 Retrolental fibroplasia, evaluation of school-age children with, 981
 Rhabdomyosarcoma, of head, with reference to orbit, 366
 of neck, with reference to orbit, 366
 Rheology, of cornea, 1197
 of lens system, 986
 Rhinostomy, suture into bone at, 365
 Rhodopsin, 986
 cycle, in retinal degeneration induced by metabolic poisons, rabbit, 985
 in octopus retina, 567
 in squid retina, 567
 intramolecular energy transfer in, 148
 regeneration, early stage, humans, 147
 Ribonucleic acid of lens, heterogeneity of, 1190
 RUBELLA, cataracts, postnatal development, possible chemical factors, 167
 congenital glaucoma secondary to, 769
 maternal, and congenital cataracts in children, 151
 and fetal involvement, criteria for abortion, 151
 neonatal, glaucoma, congenital in, 167
 retinitis, 774
 virus, influence on different media on titer of, in cell line SIR, rabbit, 151
 plaque assays in rabbit cornea, 991
 Rubenstein-Taybi syndrome, ocular manifestations, 982
- S
- Saccadic and pursuit systems, 987
 Salamander, lens regeneration from iris, dorsal, in, 142
 Saline solution to examine chamber angle, 158
 Sarcoidosis, Besnier-Boeck-Schaumann's, 1207
 Sarcoma of orbit, 778
 Scallop (*Pecten maximus*) eye, multilayer interference reflector in, 979
 Schepens' operation for retinal detachment, 773
 Sclera, and cornea, 997
 buckle, full thickness, for retinal detachment, rabbits, 775
 cyst, 996
 grafting, 162
 microdrilling of, for chronic glaucoma, 590
 plication, full-thickness, in retinal detachment treatment, 1002
 pocketing, in retinal detachment, 363
 preservation and uses, 164
 Scleritis, anti-gout treatment for, 163
 Sclerocorneal cysts, congenital, 1196
 Scleroderma, and glaucoma, unilateral simple, on same side, 590
 Scleromalacia perforans, histopathology of, 998
 pathogenesis of, 998
 Scoliosis, secondary to unilateral extraocular muscle paresis, 160
 Scotomas, central, in pituitary tumors simulating retinobulbar optic neuritis, 1203
 functional, in strabismus, influence Psychedrine on, 993
 Screening, for glaucoma, 591
 Sedimentation chamber in cytologic examination of aqueous humor, 157
 Shigella, experimental, keratitis produced by, cornea in, 765
 Shock, severe, after local anesthesia, 784
 Sialic acid, serum content in senile cataracts, 167
 Silicone, intraocular application in retinal detachment, 363
 to prevent cryosurgical adherence, 583
 Sjögren's syndrome, and lymphoepithelial lesion of lacrimal gland, 779
 Sleep, relation of unit discharge in visual cortex and activity of extraocular muscles during, 150
 Slitlamp, microscopy, in cataract surgery, 771
 of contact lenses, 579
 photography, of lens, 1193
 simplified, 994
 Snail, land, electrical responses from eye of, 978
 pulmonate, differentiation in eye of, 977
 Socket conformers, adjustable, animal experiments with, 1005
 Spatial integrations, linearity of, inhibitory interactions in, 574
 Spatial interaction in human cone vision, 148
 Spectacles, single vision, to correct presbyopia, 152
 Spectral sensitivity of turtle (*Chrysemys picta picta*), 140
 Sphingolipidoses, 143
 Spinocerebellar heredodegeneration and ophthalmoplegia, 1203
 Squid, retina membrane, origin of fast photovoltage, 149
 Squint: See Strabismus
 Steroids: See Corticosteroids
 Stevens-Johnson syndrome following anti-epileptic medication, 154
 Stiles-Crawford effect to study electrical responses of human eye, 574
 Stiles' line element in brightness-color space and color power of blue, 576
 STRABISMUS, accommodative, Donders' theory of, 1195
 convergence sursumadductorius and retraction phenomenon, electromyographic analysis, 1195
 dynamic model devised with ophthalmotrope, 994
 epidemiologic aspects of, 1194
 functional scotomas in, influence Psychedrine on, 993
 genetic data on, 585
 muscular reinforcement in, 765
 100 surgical cases, 584
 paralytic, in bilateral Raymond syndrome, 569
 periodic divergent, physiology of fusion in, 585
 surgical treatment of, 585
 primary microstrabismus, significance in development of, 159
 prisms in treatment of, 586
 role of orbital dysostosis in, 1194
 sensorimotor treatment of, 586
 surgery, new muscle clamp for, 159
 Sturge-Weber syndrome, 144
 Succinylcholine, increased intraocular pressure due to, search for drugs to limit, 591
 Suicide and the ophthalmologist, 368
 Superior oblique tendon sheath syndrome, 160
 Suppression, in binocular vision, 574
 with esotropia, 159
 Symblepharon, Medecassol to treat, 156
 mucous membrane grafts for, 165

 of interest to ophthalmologists, 1206
 Poser-Schlossman, 592
 Raymond, 569
 renofacial dysplasia (Potter), 142
 Rubinstein-Taybi, ocular manifestations of, 982
 Sturge-Weber, 144
 superior oblique tendon sheath, 160
 trisomy, ocular findings in, 983
 V, major amblyoscope to study, 995
 Waardenburg's, 143
 Synophthalmos, 144
 Syphilis, neural, produced in primate, 992
 ocular, produced in primate, 992
 optic neuritis due to, 361
 seronegative, late, aqueous humor treponemes in, 577
 Systemic disease, eye in, 367
- T
- Tacostiptan in ocular surgery, 154

- Tanzania, onchocerciasis in, 991
 Tapetoretinal degeneration, sodium iodate for study of, electrophysiologic, 363
 histologic, 363
 Tearing, in cat, 365
 TEARS, crystal of, 366
 fluid, hydrogen ion concentration in, 1205
 protein analysis of, 1189
 protein of, 366
 variation of pH in, 780
 Tests, Farnsworth lantern for color vision defect, 1193
 Pola, optical correction of emmetropes by, 1195
 Thermometry, examination and uveal circulation by, 589
 Thiopentone (³⁵S), distribution in cat eye, 1193
 Thio-TEPA, effect on corneal vascularization, 1195
 Three-mirror contact lens for fundus examination, new possibility, 156
 Thrombosis, cavernous sinus, pyrrolidinomethyl-tetracycline in, 154
 Thyroid destruction, total, to treat endocrine exophthalmos, 1207
 Thyroid disease, and glaucoma, 166
 Thyrotoxicosis, exophthalmos preceding, thyroid function in, 784
 ophthalmoplegia in, 782
 Tissues, distressed, 586
 Tonometer applanation, hand, 763
 Topometer to measure ocular displacement, 583
 Toxoplasmic retinochoroiditis, experimental, 1191
 Trabecula, cribriforme, fine structure of, 142
 Trabeculotomy for glaucoma, 166, 768
 Trachoma, agents, growth in chick embryo, 992
 infection in guinea pigs produced by, 992
 control in European region, 1209
 vaccines, immunogenicity of, baboons, 760, 991
 Transenor, pressure for implanting in eye, 994
 Trauma, glaucoma secondary to, 165
 Trephination, limboscleral, 769
 Treponemes in aqueous humor in late seronegative syphilis, 577
 Triamcinolone diacetate, ophthalmic use of, 762
 Trichlorethylene poisoning, biochemical changes in rabbit eye from, 1193
 Triglycerides in bovine lens, 989
 Triose isomerase phosphate isolated from lens, 1190
 Trisomy syndromes, ocular findings in, 983
 Tritanopia, increment thresholds in, 148
 Trochlea nucleus, chick, cell loss after radical extirpation of optic vesicle, 568
 Tuberculosis, of bulbar conjunctiva, 1197
 primary, of conjunctiva, 162, 163
 TUMORS, carcinoma, spindle-cell, of limbus, 780
 epithelioma, basal cell, of eyelids, 366
 fibrosarcoma of orbit, 781
 glioma of chiasm and optic nerve, 776
 in optic chiasm region, diagnosis of, 1203
 intraocular, echo ultrasonography of, 782
 fluorescein angiography of, 782
 glaucoma secondary to, 594
 membrane filter method to diagnose, 1006
 ultrasonic diagnosis with help of phantoms, 583
 lacrimal gland, 1205
 lymphoma, malignant, of orbit, 367
 malignant, transaminases in aqueous humor to diagnose, 782
 melanoblastoma, excision of eye for, 1205
 malignant, of uvea, 367
 melanoma, of choroid, and nevus of Ota, 367
 photocoagulation of, 780
 meningioma of optic nerve, 1003
 myxoma of orbit, 1204
 of choroid, retinal detachment secondary to, electroretinography of, 361
 of eyelids, results of treatment, 1006
 of orbit, diagnosis with ultrasonography, 365
 granuloma, lipid of, 778
 sarcoma, 778
 papillary, from retinal pigment epithelium, 772
 pituitary, visual failure with, 1203
 with central scotomas simulating retrobulbar optic neuritis, 1203
 primary, of retinal pigment epithelium, 1205
- TUMORS (continued)
 retinal anlage of anterior fontanel, fine structure of, 780
 retinoblastoma, 367, 781
 conservative treatment of, 781
 vascular, of optic nerve papilla, 363
 Turtle (*Chrysemys picta picta*), spectral sensitivity of, 140
- U
- Ubiquinone, in retina, 574
 ULTRASONOGRAPHY, A-scan and B-scan, comparison of, 583
 applications in ophthalmology, 158
 in detection of orbital myxoma, 1204
 in ocular diagnosis, 158
 of unilateral proptosis, 1205
 to diagnose orbital tumors, 365
 to study emmetropization effect of lens, 153
 with help of phantoms to diagnose tumors, 583
 Ultrasound, biometry of eye, 1191
 United States, visual acuity, monocular-binocular, in adults, 1960-1962, 1209
 Urea and vitreous barrier of eye, 983
 Urgocitron to treat herpes zoster ophthalmicus, 154
 Uvea, 1198
 circulation, examination of, by thermometry, 589
 melanoma, malignant of, 780
 UVEITIS, azathioprine (Imuran) to treat, 155
 Fuchs' heterochromic, intraocular pressure in, 166
 herpetic, experimental, 767
 hypopyon, phacoanaphylactic, 1198
 in childhood, 767
 peripheral, clinical appearance of, 165
 differential diagnosis of, 165
 pathogenesis of, 165
 Uveomeningitis, corticosteroid therapy, intrathecal in, 589
- V
- V phenomenon, sagittization of oblique muscles as possible cause, 996
 V syndrome, major amblyoscope to study, 995
 Vaccinia, ocular manifestations of, treatment with specific human immune gamma globulin, 578
 Valentine Greatrapes, ophthalmologist (1628-1683), 368
 "Varilux" lens, 579
 Vascular loop, preretinal, double, 1004
 Vascular proliferations, acquired prepapillary, 1003
 Velhagen's color plates, examinations with, 157
 Venography, orbital, 157
 Vincristine, ocular complications of therapy with, 154
 Virus, cataract induced by, 770
 disease, ocular, prospects in treatment of, 151
 infectious avian encephalomyelitis, cataract in fowl associated with, 979
 rubella, plaque assays in rabbit cornea, 991
 VISION, binocular, suppression in, 574
 defective, protection of employees with, 1208
 human, velocity-sensitive elements in, 1190
 in infants, 149
 nyctohemeral, 573
 of Bermuda reef fishes, 567
 screener, 763
 studies in, 570
 two-pulse measures of temporal resolution in, 989
 Vision testing, preschool, 1208
 VISUAL ACUITY, dynamic method to determine, 579
 effect of accommodation microfluctuations, 579
 in adults, United States, 1960-1962, 1209
 in low illumination to diagnose strabismic amblyopia, 160
 monocular-binocular, in adults, United States, 1960-1962, 1209
 of compound eye, model, 151
 of rhesus monkey, 978
 of squirrel monkey, 978
 Visual cortex, binocularly driven neurons in split-chams, cats, 149
 cell reaction to movement and contrast, rabbit, 148
 changes with first exposure to light, rats, 985
 removal, visual threshold after, rat, 986
 temporal relation of unit discharge in, during sleep, 150

- Visual deprivation, optic nerve changes in, mice, 570
 Visual discrimination, facilitation by nicotine, rat, 1192
 Visual evoked potentials, and metacontrast, 984
 contribution to various retinal areas, 145
 electroretinogram, area-luminance relation and, 988
 variations in, man, 570
 Visual evoked response, and eye movements, interaction
 between, cat, 571
 by localized retinal stimulation, 986
 Visual facilitation, 144
 theory of, 144
 Visual fields, alterations after ophthalmodynamometric
 compression,
 in glaucomatous eyes, 166
 in normal eyes, 166
 grid for scoring, 1193
 Visual function, ocular conversion reaction involving,
 1005
 Visual impulses, role in control of eye muscle activity,
 778
 Visual perception disorders, in patients with localized
 cerebral lesions, 364
 Visual pigment, extraction of, with alkyl-phenoxy-poly-
 ethoxy ethanol surface active compounds, 145
 fluorescence of, 149
 Visual process, biochemical mechanism of, 146
 in limulus eye, 983
 underlying binocular brightness summation, 146
 Visual resolution with light entering different parts of
 pupil, 761
 Visual system, 977
 human, transmission of edge formation in, 571
 of lycose (Araneae: Lycosidae), fine structure, 978
 transfer quality for color information, 574
 Visual threshold after striate cortex removal, rat, 986
 Visuomotor reaction time, neural circuits involved, mon-
 key, 145
 Vital staining, contamination of eyedrops used for, 155
 Vitamin A, deficiency, ocular manifestations of, 784
 localization in avian retina, 569
 VITREOUS HUMOR, barrier, selective, properties of,
 983
 urea and, 983
 VITREOUS HUMOR (*continued*)
 cyst, congenital of, 594
 human, biochemical study of, 1002
 immunoglobulin G in, rabbits, 990
 lens, luxated, extracted from, 1200
 loss, cerclage tightening for, 359
 in cataract surgery, 770
 potassium concentration changes after death, 1002
 substitutes, observations on, 359
 surgery, 770
 Vogt-Koyanagi-Harado uveomeningitis, corticosteroid
 therapy, intrathecal in, 589
 Von Hippel-Lindau disease, 569
 Von Recklinghausen's disease, 367
 buphthalmos of, 143
 neurofibromatosis of, 143
 pigmentary change in, 775
 W
 Waardenburg's syndrome, 143
 Wegener's granulomatosis, ocular involvement in, 1207
 Wernicke's disease and bilateral ptosis, 777
 Woman, reperfusion of reproductive life on ocular ap-
 paratus, 367
 Wounds, corneal, Medecassal to treat, 156
 X
 X phenomenon, sagittalization of oblique muscles as pos-
 sible cause of, 996
 Xanthogranuloma, juvenile, of conjunctiva, 164
 of cornea, 164
 of eyelids, 781
 Xenopus laevis, lens antigens of, 991
 Xerophthalmia and protein malnutrition, Bantu children,
 162
 Xg and albinism, 1189
 X-ray, examination, of conjunctiva, 140
 films, graticule for measurement of, in intraocular for-
 eign body localization, 156
 Z
 Zoster ophthalmicus, local treatment with cortisone, 150
